

Room Enough

Dionne Warwick

My life's been crowded like Drensteinfurt station
With memories of other loves wavin' goodbye
I've been shoved around, and pushed aside
By those who have taken my tokens, and thanked me for the ride

That's why I'm late in returnin' all the love you've been givin'
So please, don't leave me, just wait for me

And let me make (room) room (enough) enough
(For) for your love (your love)
In my heart (room) there is room (enough) enough
(For) for your love (your love) yeah

Somewhere (room) there is (enough) room enough
(Room) somewhere (enough) room enough

I know that your love is worth holdin' on to
It's something you've proven all the time
Oh, my heart's been so crowded
By a smoke that surrounded
My memories of other loves, and their lies

That's why I'm late in returnin' all the love you've been givin'
So please, don't be leavin', just wait for me

And let me make (room enough) room enough
(For) for your love (your love)
In my heart (room) room (enough) enough
(For) for your love (your love)

Somewhere there is (room) room (enough)
Said there is (room) room enough (enough)
Yeah, there is (room) room (enough)
For your love (for your love)
For your (for) love (your love)
Said there is room (for) enough (your love) room enough for your

(Room) roo- (enough) room enough
(For) for your love (your love)
In my heart there is (room) roo- (enough) room enough
(For) for your love (your love) yes, it is

There is room enough (room enough) for your love
(For) room enough (your love) for your love
(Room) room enough (enough) room enough
(For) room enough (your love) room enough for you love

(Room) yes, it is (enough) room enough
(For) room enough (your love) for your love
(Room) room enough (enough) room enough
(For) room enough (your love) room enough
