

Starlight

Dionne Warwick

Here's my hand, give me yours
Now you won't be alone anymore
Don't give up, Don't you fear
When you call, I'll be here

I will be starlight, a little shining spot
I hope my starlight protect you from the dark
When you're lost in the night
Turn to me, and I will be starlight
I will be starlight

When your plans fall apart
Tell me all the dreams in your heart
With some help, those dreams can fly
Turn and look to the sky

I will be starlight, a little shining spot
I hope my starlight protect you from the dark
When you're lost in the night
Turn to me, and I will be starlight
I will be starlight

And with some help, those dreams can fly
You'll be surprised how your spirits will rise
Once you lift up your eyes to the sky

You'll be starlight, and though it's just a spot
I hope my starlight protect you from the dark
When you're lost in the night
Turn to me, and I will be your starlight
I'll be your starlight
Starlight
I'll be your starlight
