

## Stay Devoted

Dionne Warwick

Hold on till I come home again  
Sleep tight, know my love is strong  
We're in a town that likes to talk  
But with Someone who really loves you  
With Someone who really needs you, mmm...

Sweet dreams will come and follow you  
Each day closer than before  
We're in a town where love don't last  
But with Someone who really loves you  
Oh, with Someone who really needs you

Then you should stay devoted  
Do everything for Him  
Oh, you got to hold on to His love

Just know my love is strong  
Hey, nothing's gonna stop us now  
'Cause there's Someone who really loves you  
Yes, when Someone who really needs you

Well, then you should stay  
Stay devoted  
Do everything for Him  
Oh, you got to hold on to His love  
And even in, in the dark times  
He's gonna burn the sun  
So you gotta hold on to His love

Hold on and stay devoted  
To that Someone who really loves you  
Just know His love's forever  
Stay with Someone who really needs you...
