

# Take It From Me

Dionne Warwick

Take it from me, my love is yours  
Just take it from me, well, all that I am  
I'm gonna put in your hands

Ever since I first laid my eyes upon you  
Oh, all that I knew was  
That you pulled the string  
That made my heart start to sing  
Oh baby, you got the thing

I'm jumping inside with expectation  
I feel it through out my circulation  
I never felt such anticipation

Oh, take it from me  
The thought of you is shaking through me  
Well, it's perfectly clear  
I couldn't live without you, my dear

From the very first moment when we touched  
Oh, it was too much  
And now I feel the glow  
I don't care how much it shows  
Oh darling I love you so

When you look at me there's no resisting  
The magic of your touch has me spinning  
You are my reason for existing

Ever since I first laid my eyes upon you  
Oh, all that I knew was  
That you pulled the string  
That made my heart start to sing  
Oh baby, you got the thing

I'm jumping inside with expectation  
I feel it through out my circulation  
I never felt such anticipation

I'm jumping inside with expectation  
I feel it through out my circulation  
I never felt such anticipation

I'm jumping inside with expectation  
I feel it through out my circulation  
I never felt such anticipation

I'm jumping inside with expectation  
I feel it through out my circulation  
I never felt such anticipation
