

This Time Is Ours

Dionne Warwick

This time is ours
For as long as it's meant to last
Let's pray that time doesn't move too fast
When you love
How quickly the moments pass
This time is ours
And no one can take it away
Why live our lives for yesterday?
It's too great a price to pay

How great it is when someone discovers
There really is a magic time for lovers
It lifts your spirit right up to sky
Let's pray that this feeling will never die

This time is ours
And we're only at the start
Maybe one day we'll have to part
But since you and I can't read the stars
Let's be glad that this time is ours

Oh, how great it is when someone discovers
There really is a magic time for lovers
It lifts your spirit right up to sky
Let's pray that this feeling will never die, never die

This time is ours
And we're only at the start
Maybe one day we'll have to part
But since you and I can't read the stars
Let's be glad that this time is ours

Oh, oh, maybe one day we'll have to part
But since you and I can't read the stars
Let's be glad that this time is ours

Oh, maybe one day we'll have to part
But since you and I can't read the stars
Let's be glad that this time is ours
