

# Til the End of Time

Dionne Warwick

(I'm gonna give you all my love)  
Come and get it, come and get it  
(I'm gonna give you all my love)  
Until the end of time

I traveled all over the world and  
Still haven't found no other  
Who loves the way that you do  
Sailed across the ocean  
Searching for a dream  
But I found my dream in you

(You're the best) like no other  
(I confess) yes I confess  
I found my one true love  
(One and only love)  
My one and only love  
Say you'll be mine

'Cause I know we'll face each storm  
Hearts bound side by side  
No matter what life throws our way  
We will survive  
(I want you, I need you)  
Say you'll be mine  
The love we share  
It's gonna last until the end of time

Those other romeos  
Do too much make believin'  
But you were true from the start (start)  
When you hold me tight  
Sharing your secret feelings  
A chill rushes through my heart  
(Since we met) since we met

(All the rest) ooh  
No one compares to you  
(One and only love) you know you're my one and only love  
(My love) say you'll be mine

Cause I know we'll face each storm  
Hearts bound side by side  
No matter what life throws our way  
We will survive

(I want you, I need you)  
Say you'll be mine  
The love we share  
It's gonna last until the end of time

(I want you, I need you)  
Say you'll be mine  
The love we share  
It's gonna last until the end of time

Come and get it

Come and get it

You know I want you boy

You know I need you boy

You know I want you boy

You know I need you boy
