

Time Takes Time

Dionne Warwick

You will learn that life's, a special journey
Transforming us in ways that we can't see
The person that you are today, can't help growing up
Along the way
To who you're meant to be

Time takes time
You can't have all the answers now
Time takes time
To understand what life's about
Everyday you're changing, into who you're gonna be
So listen to your heart, 'cause time takes time

Find the faith, in knowing that you'll get there
Find the strength, to not do what feels wrong
Just listen to your voice inside
Can't rush life, you got, to take a ride
To get where you belong
Oh time takes time
You can't have all the answers now
Time takes time
To understand what life's about
Everyday you're changing, into who you need to be
So listen to your heart, 'cause time takes time

If you focus on the present, tomorrows a surprise
If you enjoy each moment as it comes
Life won't pass you by!

Time
(Time)
Takes time
(We'll show you how)

To understand what life's about
Everyday you're changing, into who you really are
So listen to your heart, 'cause time takes time
