

# With a Touch

Dionne Warwick

When people question  
How did our love get started  
I always tell them  
It's very clear to see

If you have it in your heart  
Then within you  
You hold the key for answering  
The very question that you're asking me

With a touch of my love  
And a touch of your love  
A touch of our love

When people say that  
Time will take with it our feelings  
My only answer  
To them is that we will see

For when two hearts beat as one  
In rhythm for eternity  
Know yourself  
Exactly what the outcome's gonna be

With a touch of my love  
And a touch of your love  
A touch of our love (With a touch of my love)  
With a touch of my love  
And a touch of your love  
A touch of our love (With a touch of my love)  
With a touch of my love  
And a touch of your love  
A touch of our love (With a touch of my love)  
With a touch of my love  
And a touch of your love  
A touch of our love (With a touch of my love)  
With a touch of my love  
And a touch of your love  
A touch of our love (With a touch of my love)  
With a touch of my love  
And a touch of your love  
A touch of our love (With a touch of my love)  
With a touch of my love  
And a touch of your love  
A touch of our love (With a touch of my love)  
With a touch of my love  
And a touch of your love
