

Without Your Love

Dionne Warwick

Fire
You know you give me fire
I'll be your shadow
When you want me I will follow

Now you know we may be right
We may be wrong
But when there's two of us
Baby we're so strong

Goin' out of my head
Can't stop this feeling from
Knowing that
So don't bother to fight
You won't move me with dynamite
'Cause you know

Without your love
I can't live
If you love me
Baby you've got to give
Without your love
It's no use
Say you love me
Baby you've got to choose
When you need love
I'll be there
When you need it
Baby we've got to share
'Cause I've got love
I must say
And I love you
In every way

Roses
You wrap my love in roses
You don't have to try luck
I will always give you my love

Now you know we may be right
We may be wrong
But when there's two of us
Baby we're so strong

Goin' out of my head
Can't stop this feeling from
Knowing that
So don't bother to fight
You won't move me with dynamite
Don't you know

Without your love
I can't live
If you love me
Baby you've got to give
Without your love
It's no use

Say you love me
Baby you've got to choose
When you need love
I'll be there
When you need it
Baby we've got to share
'Cause I've got love
I must say
And I love you

I' goin' out of my head
Can't stop this feeling from
Knowing that
So don't bother to fight
You won't move me with dynamite
Dynamite, baby

Without your love
I can't live
If you love me
Baby you've got to give
Without your love
It's no use
Say you love me
Baby you've got to choose
When you need love
I'll be there
When you need it
Baby we've got to share
'Cause I've got love
I must say
And I love you
In every way
