

DOWN

Dipha Barus

Yeah you
Wouldn't know wouldn't know wouldn't know what I've been through
Yeah you
Couldn't go couldn't go to the places I been to
Every little bit of hesitation
Every other night you had me waiting
Yeah you
Never know never know what you have till it's gone

Wait
You don't gotta hide your face
We'll throw it all away
Start another page
Wait
For the love we haven't made
I'm begging you to stay

Let me hold it down down down down
Let me hold it down down down down down
Let me hold it down down down down
Let me hold it down down down down down

Let me hold it down down down down
Let me hold it down down down down down
Let me hold it down down down down
Let me hold it down down down down down

Yeah you
Shoulda said shoulda said shoulda said what you wanted to
No clue
Didn't know didn't know what stood
What I had to lose

Maybe we should finish what we started
Every other night at your apartment
Yeah you
Never know never know what you have till it's gone

Wait
You don't gotta hide your face
We'll throw it all away
Start another page
Wait
For the love we haven't made
I'm begging you to stay

Let me hold it down down down down
Let me hold it down down down down down
Let me hold it down down down down
Let me hold it down down down down down

Let me hold it down down down down
Let me hold it down down down down down
Let me hold it down down down down
Let me hold it down down down down down
