

You Move Me

Dipha Barus

I feel you moving
You and I glow like golden shooting stars
Found my heaven, found my love
All in motion it ain't above

I make mistakes but I know that it's alright (It's alright)
Slowly I learned that beauty's on the inside (The inside)
'Cause there's a little bit of heaven we can see inside of you and I (Come look closer)
'Cause there's a little bit of heaven we can see inside of you and I

'Cause baby to me
You're my one and only
Baby to me
You here makes me happy
You know that I'm grateful
I'm thankful for everything that I've got
'Cause you know I love the way you move me
You move me

You're looking so pretty baby
The way you are glow like golden shooting stars
Found my heaven, found my love
All in motion and in a vision it ain't above

I'm not afraid of my own shadows, I know I'ma be alright
Slowly I learned that beauty's on the inside (The inside)
'Cause there's a little bit of heaven we can see inside of you and I (Come look closer)
'Cause there's a little bit of heaven we can see inside of you and I

'Cause baby to me
You're my one and only
Baby to me
You here makes me happy
You know that I'm grateful
I'm thankful for everything that I've got
'Cause you know I love the way you move me
You move me

Way you move me
Baby, that's all I want
You're my only one
You move me
Love the way you move me
Love the way you move me
Love the way you move me

'Cause baby to me
You're my one and only
Baby to me
You here makes me happy
You know that I'm grateful
I'm thankful for everything that I've got
'Cause you know I love the way you move me
You move me
