

BRAIN

Diplo

Disassociate your brain, your brain
I know you love the pain, I love the pain
You're not okay, I'm not okay
I know you love the pain, I love the pain (Yeah)

Stress me out, and touch me now
Put your hands around my throat and choke me out
And shut my mouth, then shut your mouth
But keep on talkin' all that shit, I love that sound

And say my name like you mean it
Or disrespect me, say you want it, say you need it
Don't have to mean it, don't have no ceiling
Hurry up, take off that dress, it's too revealing, yeah

Disassociate your brain, your brain
I know you love the pain, I love the pain
You're not okay, I'm not okay
I know you love the pain, I love the pain
Diso-, your brain, your brain
I know you love the pain, I love the pain
You're not okay, I'm not okay
I know you love the pain, I love the pain
