

My things are packed in a suitcase  
Yours loaded up in the truck  
I know you're callin' your friends and you're tellin' them  
Your one-sided version of us

I bet you put it all on me  
Dirtied up my name  
Gave me every last bit of the blame

You're gonna tell 'em that I'm crazy  
But never tell 'em that you made me that way  
You're gonna tell 'em that I broke your damn heart  
But never tell 'em what you did, baby, in the dark  
You say I lost my shot, yeah, I really blew it  
But I didn't miss a chance, I just dodged a bullet  
I just dodged a bullet

I bet you're glued to a barstool  
I bet you're throwing 'em back  
I bet you're talking 'bout us, bringing me up  
Even when nobody asked

I bet you put it all on me  
Dirtied up my name  
Gave me every last bit of the blame

You're gonna tell 'em that I'm crazy  
But never tell 'em that you made me that way  
You're gonna tell 'em that I broke your damn heart  
But never tell 'em what you did, baby, in the dark  
You say I lost my shot, yeah, I really blew it  
But I didn't miss a chance, I just dodged a bullet  
Yeah, I just dodged a bullet  
I just dodged a bullet

I bet you put it all on me  
Dirtied up my name  
Gave me every last bit of the blame

You're gonna tell 'em that I'm crazy  
But never tell 'em that you made me that way  
I just dodged a bullet  
I just dodged a bullet  
I just dodged a bullet  
Yeah, I just dodged a bullet
