

Horizon

Diplo

The first night in San Antone
I realize, I realize
That I wasn't tryna fall for you
Those big brown eyes, big brown eyes

If I said it meant nothing to me, I
I'd be lyin', I'd be lyin'
I'd be lyin', I'd be lyin'

If you heard it, if you search here
I'll be right here where you left me
I'm just over the horizon
I'll be right here where you left me
If you heard it, if you search here
I'll be right here where you left me

Where you left me, where you left me
Where you left me, oh
Where you left me, where you left me
Where you left me, oh

Leave me here, I'll be fine
We need space, we need time, whoa

If I said it meant nothing to me, I
I'd be lyin', I'd be lyin'
I'd be lyin', I'd be lyin'

If you heard it, if you search here
I'll be right here where you left me
I'm just over the horizon
I'll be right here where you left me
If you heard it, if you search here
I'll be right here where you left me
I'm just over the horizon
I'll be right here where you left me

Where you left me, where you left me
Where you left me, oh
Where you left me, where you left me
Where you left me, oh
