

# One By One

Diplo

All these bodies on the floor wait one by one  
Just hold the tear, taste of love, it holds me, it tears me up

Oh, one by one, I can feel it on my tongue  
Even when the night goes numb I can still hold on for you  
For you, ay

Long mountains in the setting sun, it's all I ever want  
Just hold the tear, taste of love, it holds me, it tears me up

Oh, one by one, I can feel it on my tongue  
Even when the night goes numb I can still hold on for you  
For you, ay

Oh, one by one, I can feel it on my tongue  
Even when the night goes numb I can still hold on for you  
For you, ay
