

## Real Life Stuff

Diplo

I wanna do that real life stuff with you  
Turn everything around and fall in love with you  
You got me feelin' different when it comes to you  
Yeah, you know, yeah, you know, know why  
I wanna do that real life stuff with you  
Don't wanna, ah, I wanna make love to you  
You got me feelin' different when it comes to you  
Yeah, you know, yeah, you know, know why

Talk to my friends, I'll let 'em tell ya  
Was runnin' 'round just like a menace  
Doin' whatever I want  
Wreakin' havoc on a heart  
Talk to my friends, I'll let 'em tell ya  
Got off on makin' people jealous  
Got out of bed for someone's arms  
A mini episode of love, then I'd get back in my car

I wanna do that real life stuff with you  
Turn everything around and fall in love with you  
You got me feelin' different when it comes to you  
Yeah, you know, yeah, you know, know why  
I wanna do that real life stuff with you  
Don't wanna, ah, I wanna make love to you  
You got me feelin' different when it comes to you  
Yeah, you know, yeah, you know, know why

Talk to my friends, I'll let 'em tell ya  
Got off on makin' people love and lose control  
Lost myself on the way to findin' freedom  
Searchin' for your kinda love, but movin' slow  
Now I want that real life, don't know what it feels like  
I just know it feels right, right now  
Been stuck in my old ways  
But I know there's no place like home  
And you feel like home  
And I wanna say, yeah

I wanna do that real life stuff with you  
Turn everything around and fall in love with you  
You got me feelin' different when it comes to you  
Yeah, you know, yeah, you know, know why  
I wanna do that real life stuff with you  
Don't wanna, ah, I wanna make love to you  
You got me feelin' different when it comes to you  
Yeah, you know, yeah, you know, know why

Talk to my friends, I'll let 'em tell ya  
I took emotions off the menu  
I cooked up fire where I could  
But nothin's ever taste as good, oh yeah  
Talk to my friends, I'll let 'em tell ya  
Got off on makin' people jealous  
Got out of bed for someone's arms  
A mini episode of love, then I'd get back in my car

I wanna do that real life stuff with you
