Win Win

Diplo

I know you're hurting but I can kiss you better
And make you feel like I'm your long lost love
Bet it was painful and beautiful
In the way that makes it hard for you to let it go

Dim all the lights, dry your eyes
Hell of the time, her out of mind
Dim all the lights and get close to me
Just for the night we can both be free

Yeah and that's a win win
Give me what I want and I got you tonight
Yeah and that's a win win
Give me what I want and I got you tonight

Let it go

No need to talking out loud if you don't wanna
Know we can use our lips a million ways
Just put 'em right on my body and I'll forget 'bout the world
Yeah, you'll be my sweet escape

Dim all the lights, dry your eyes
Hell of the time, her out of mind
Dim all the lights and get close to me
Just for the night we can both be free

Yeah and that's a win win
Give me what I want and I got you tonight
Yeah and that's a win win
Give me what I want and I got you tonight
