An end begins a trivial matter
It's a time to burn everything
If I could forget you without hesitation...
Serious injury laughs at me
The time is changing, the passage of time burns me, you, now
Solitude laughs as it likes
Solitude laughs as it likes
You laugh You laugh
You laugh You laugh as you look down
The time is over, the time will stop
At the end of the time sleeping with a kiss to unheated death

Todokanai kimi no aijou todokanai boku no aijou
Ima mo hora ne...
Todokanai kimi no koe wa todokanai boku no koe mo
Ima mo hora...
Yume wa kare suna ni kaeri itsuka mata boku no naka de
