Direct Hit!

What can you say when they take you away  
And they inlay a chip in your head  
What can you do when you don't have a clue  
What to do if you get one you're dead  
So we lie here awake both of us in my brain  
Take cocaine just to bare all the pain  
Every thought that I've got gets recorded  
Won't stop till we give in to feeling insane

So every thought that I've had  
From the record I'm glad  
That the side effects keep me awake  
Can't get to sleep so the record I keep  
Starts to creep between natural and fake

What can you say when they take you away  
And relay every thought that you have  
Thank you I guess that's the best more or less  
Try to think of something else but you can't

So you go and open your mind  
And just let it all hang out  
Repulsed by your brain they retreat you refrain  
Let it be and live with a doubt  
But the nightmares don't end  
There's no way to escape  
Go to sleep with the thought  
That the time that you bought to complain  
Just to complain

Well post surgery you need drugs so you see  
Ain't a whole lot that you can do  
Control the supply easy grip on the mind  
Is the dharma they subscribe to

What can you say when they take you away  
And relay every thought that you have  
Thank you I guess that's the best more or less  
Try to think of something else but you can't

So fuck  
The world  
Give up  
Just go  
Got a lot on my mind  
And I'd really rather keep it inside

So you go and open your mind  
And just let it all hang out  
Repulsed by your brain they retreat you refrain  
Let it be and live with a doubt  
But the nightmares don't end  
There's no way to escape  
Go to sleep with the thought  
That the time that you bought to complain  
Just to complain

Open your mind and just let it all hang out  
Repulsed by your brain they retreat you refrain  
Let it be and live with a doubt  
But the nightmares don't end  
There's no way to escape  
Go to sleep with the thought  
That the time that you bought to complain  
Just to complain
