

Dirty Mind

Dirty Honey

I never needed a doctor, they're always pushing me pills
I never needed a dealer, I can find my own thrills
But every man got his vices, and Lord, I know that you're mine
Just kick back, it's an all-
out attack, and I can't get away this time

'Cause I, I, I
I just wanna know, I just gotta know just why-y-y
I keep my hands clean when you know I've got a dirty mind
Make up your mind
Every time I said
"Make up your mind"
Get down

I never needed a preacher to tell me what to believe
'Cause I can look in a mirror when I wanna deceive
I gotta know if ya want me or are you setting me free?
It's alright, won't hold too tight, take me in or let me be

'Cause I, I, I
Said I just wanna know, I just wanna know, babe, why-y-y
I keep my hands clean, but you know I've got a dirty mind
Make up your mind
Every time I said
"Make up your mind"
All this time
And make up your mind
Every time I said
"Make up your mind"

I keep my hands clean, but you know I've got a dirty mind
And make up your mind
Every time I said
"Make up your mind"
Said, "Make up your mind"
Every time I said
"Make up your mind"
