

# No Warning

Dirty Honey

I wasn't looking for a reason  
I didn't want to know why  
But if you wanna play a martyr  
Don't even waste my time  
I never said I was a victim  
So, lay it all to rest  
And if you're thinking I'm guilty  
Then, baby, I'll confess

That I've been down this road for way too long

Now, I'm living for the night  
'Cause nothings guaranteed  
I'm living for the night, baby  
Don't put your blame on me  
I'm living for the night  
Ain't nothing guaranteed  
When those lights are calling  
You better talk soon  
'Cause I'll go without a warning

And now, you're looking for a shelter  
But my doors are closed  
'Cause I don't think that I can help ya  
But what you do need most  
Is to cry me a river  
And rid yourself of the crime  
And though it might sound bitter  
But your water's too high

'Cause you've been spinning tales for way too long

Now, I'm living for the night  
'Cause nothings guaranteed  
I'm living for the night  
Don't put your blame on me  
I'm living for the night  
Don't lay it all on me  
When those lights are calling  
You better talk soon  
'Cause I'll go without a warning

Living for the night

I'm living for the night, baby  
'Cause nothings guaranteed  
I'm living for the night  
Don't put your blame on me  
I'm living for the night  
Don't lay it all on me  
When those lights are calling  
You better talk soon  
'Cause I'll go without a warning
