

Won't Take Me Alive

Dirty Honey

I ain't a fighter, but you're never taking me alive
So if you're coming then you oughta know it's suicide
Cause you won't make me crawl
When my backs to the wall

You ain't taking me alive
Won't bleed me out to dry
I'll tell you like I said before
I never asked to start a war
But now you know that I'd rather die
You won't take me alive

Don't complicate it you created your own misery
I ain't a victim cause I won't listen to your mind's disease
You want me to bleed
But I got an ace up my sleeve

You ain't taking me alive
Won't bleed me out to dry
I'll tell you like I said before
I never asked to start a war
But now you know that I'd rather die
You won't take me alive

You ain't taking me alive
Won't bleed me out to dry
I'll tell you like I said before
I never asked to start a war
But now you know that I'd rather die
You won't take me alive
