All That I've Become

DiRTY RADiO

I've forgiven me for all the things I've done
Cause I have known myself to be second to none
I hope you can see where I been coming from
There were things that I would never change about ya
But I forgive myself, for all that I've become
Could you be, could you be more difficult
Could you be, could you be more difficult
Could you be, could you be more difficult
Could you be, could you be more difficult

Could you be more
Could you be more difficult
Up all night, could you be
Up all night, could you be
Up all night, could you be
Up all night, could you be more difficult
Up all night sliding to sunrise, could you be
Up all night sliding to sunrise, could you be
Up all night sliding to sunrise, could you be
Up all night sliding to sunrise, could you be

Would you bleed, if I used the same knife that you used on me?
Would you concede – admit that I don't chose my own ending
I hope you can see where I been coming from
There were things that I would never change about Ya
But I forgive myself, for all that I've become
Could you be, could you be more difficult
Could you be, could you be more difficult
Could you be, could you be more difficult

Could you be more
Could you be more difficult
Up all night (could you be)
Up all night (could you be) (Yeah)
Up all night (could you be) (Up all night)
Up all night (Yeah)
Up all night sliding to sunrise (could you be)
Up all night sliding to sunrise (could you be)
Up all night sliding to sunrise (could you be)
Up all night sliding to sunrise (could you be)
Could you be so difficult
Sliding to sunrise
Sliding to sunrise
