

Killin' Me

DIRTY RADiO

Imma been a bad guy
Push it till you heat up
Says she want to meet up
Got some time I can free up
Left your phone at my studio
I just might go through it though
Call your girls and we both know
Snow whites in my bungalow

Looking bad girl
Imma fuck with your heart
She's a rough one
She could break, break my heart
Looking bad girl
Imma fuck with your heart
She's a rough one
She could break, break my heart

These endless nights are killing me
Killing, killing me
These endless nights are killing me
Killing, killing me
These endless nights are killing me
Killing, killing me
These endless nights are killing me
Killing, killing me

Every time she text me that
Lose my mind till she gave it back
She lose her mind
With them coke zeros
Hit the sky when I see him sway
Looking fly no jay today
Better think before I head there
Or I just might regret that

Looking bad girl
Imma fuck with your heart
She's a rough one
She could break, break my heart
Looking bad girl
Imma fuck with your heart
She's a rough one
She could break, break my heart

These endless nights are killing me
Killing, killing me
These endless nights are killing me
Killing, killing me
These endless nights are killing me
Killing, killing me
These endless nights are killing me
Killing, killing me

Killing me, killing, killing me
These endless nights are killing me
Killing, killing me

These endless nights are killing me
Killing, killing me
These endless nights are killing me
Killing, killing me
