

Do What You Feel

Dirty Vegas

You
You are a miracle
Don't let nobody tell you anything else
You
You are so wonderful
Cuz' they don't know you like you know you know yourself

Cause the hardest part is the hardest part when you don't know
where to go
And the longest mile is the one you take when the road runs out
of road

Do what you feel
Do what you want to do
Do what you feel
When it all comes down to you

You
You are a miracle
Don't let nobody tell you anything else
You
You are so beautiful
Cause they don't know you like you know you know yourself

Cause the hardest part is the hardest part when you don't know
where to go
And the longest mile is the one you take when the road runs out
of road

Do what you feel
Do what you want to do
Do what you feel
When it all comes down to you

Do what you feel
Do what you want to do
Do what you feel
When it all comes down to you

Do what you feel
Do what you feel
Do what you feel
When it all comes down to you
