

Let the Night

Dirty Vegas

Take a look at yourself
You're going somewhere
Such a beautiful thing
But it feels right

No, it's never too late
To believe in something
And open your eyes
See what the world is saying

You should see how good you look right now
You should see how good you look right now
Let the night (4x)
Follow you
Let the night (4x)
Follow you

Take another deep breath
Look at your reflection
You're beautiful thing
It feels right

Give a little bit more
Try a little bit harder
Can do anything
See what the world is saying
