

## Let the Night

Dirty Vegas

Take a look at yourself  
You're going somewhere  
Such a beautiful thing  
But it feels right

No, it's never too late  
To believe in something  
And open your eyes  
See what the world is saying

You should see how good you look right now  
You should see how good you look right now  
Let the night (4x)  
Follow you  
Let the night (4x)  
Follow you

Take another deep breath  
Look at your reflection  
You're beautiful thing  
It feels right

Give a little bit more  
Try a little bit harder  
Can do anything  
See what the world is saying
