along a strange way
 tear down all fears
 rely on mind's eye
 and face all doubts

beware of the know all
their pessimistic view
preserve your conviction
just visual - just visual for you

me and my world
a wholesome church

no easy movement against the stream pragmatic values destroy the dream

beware of the know all
their pessimistic view
preserve your conviction
just visual - just visual for you

me and my world
a wholesome church

I take the difficult way
I don't need any church to pray
I've chosen the right way for me

I take the difficult way
I don't need any church to pray
I've chosen the right way for me

me and my world
a wholesome church
me and my world
come on and see - and see...

they destroy the dream they destroy the dream, my dream they destroy the dream they destroy the dream, my dream my dream
