

They Declare It

Discharge

They have the right what fuckin' right?
To say I must fight in their fuckin' wars

They declare it!

Why should I fight in their fuckin' wars?
When they don't consult my views of war?
They declare it!

Why should I fight in their fuckin' wars?
Why should I do their killing and be killed?

They declare it!

It's nothing to them if I were dead or alive
All they want is death or glory

They declare it!

They! They! They declare it!
They! They! They declare it!
They! They! They declare it!
They! They! They declare it!
War! War! War!
