

Darkness Dies

Disciple

I know you need healing, you're looking at me with
A heart that is broken deeper than my words can give
You say that you want love, endless and true love
I've got the solution if you're really listening

So put you're money where your mouth is
Put your faith in what you're doubting
If there's no telling where the truth is
Then why you keep looking, why you keep looking?

I'm not your savior, I'm just a man
And I'll let you down if you give me the chance
I can't pick you up when you're feeling like nothing
But I'll give you something
I can show you the light till the darkness dies
(I can show you the light)
I'm with you in darkness
I can show you the light

I know you've been lied to by voices inside you
You feel like you've cried through 7,000 helpless nights
These hands cannot save you, but I know the way through
This nightmare of shadows are you ready to wake up?

So put you're money where your mouth is
Put your faith in what you're doubting
If there's no telling where the truth is
Then why you keep looking, why you keep looking?

I'm not your savior, I'm just a man
And I'll let you down if you give me the chance
I can't pick you up when you're feeling like nothing
But I'll give you something
I can show you the light till the darkness dies
(Till the darkness dies, I can show you the light)
I'm with you in darkness
I'll show you the light till the darkness dies
(Till the darkness dies, I can show you the light)
I'm with you in darkness

So put you're money where your mouth is
Put your faith in what you're doubting

I'm not your savior, I'm just a man
And I'll let you down if you give me the chance
I can't pick you up when you're feeling like nothing
But I'll give you something
I can show you the light till the darkness dies
(Till the darkness dies, I can show you the light)
I'm with you in darkness
I'll show you the light till the darkness dies
(Till the darkness dies, I can show you the light)
I'm with you in darkness
I can show you the light

(Till the darkness dies)
(I'm with you in darkness)

(I'll show you the light)
(Till the darkness dies)
(I'm with you in darkness)
I can show you the light
