

Kingdom Come

Disciple

If there's a world where there's no fear anymore
Where there's no plague anymore
A world with justice without any war
Then let me receive it

I'll have to see this for myself
I'll have to feel this for myself
There is so much reality
More than I see and I'm feeling

If love is the answer
Then let your kingdom come
If love is the answer
Then let your will be done

Let your kingdom come
And cover me
With your heaven on my lips
Let me love like You love
Let my war turn to pieces of You
When your kingdom comes
Let your kingdom come

If there's a world where there's no hate anymore
Where there's no pain anymore
A world where dark won't shine like before
Then let me receive it

I'll have to see it
I'll have to feel it
But there's reality
More than I see and I'm feeling

Let your kingdom come
And cover me
With your heaven on my lips
Let me love like You love
Let my war turn to pieces of You
When your kingdom comes
Let your kingdom come

If love is the answer
Then let your kingdom come
If love is the answer
Then let your will be done

Let your kingdom come
And cover me
With your heaven on my lips
Let me love like You love
Let my war turn to pieces of You
When your kingdom comes
Let your kingdom come
Let your kingdom come
