

# Misery

Disciple

I don't want help, I don't want to get better  
All I want is your sympathy  
Can't stop myself, can't keep it together  
Cause I'm in love with misery

Don't try to tell me it's all for something  
Don't try to tell me the scars were a part of the plan  
Don't try to tell me I'm more than nothing  
I found a comfort in being the victim

Look in my eyes  
Do I seem fine?  
I'm not alright  
I'm so far from alright

I don't want help, I don't want to get better  
All I want is your sympathy  
Can't stop myself, can't keep it together  
Cause I'm in love with misery  
I'll do the motions you seek  
I'll pray the words that you speak  
But you won't get to this heart locked inside of me  
I don't want help, I don't want to get better  
Cause I'm in love with misery

Would you pay any attention to me  
Without the drama of hashtag so depressed  
Don't try to take my excuses from me  
Cause victims get a free license to put you through hell

Look in my eyes  
There is no disguise  
I'm not alright  
I'm beginning to believe my lies

I don't want help, I don't want to get better  
All I want is your sympathy  
Can't stop myself, can't keep it together  
Cause I'm in love with misery  
I'll do the motions you seek  
I'll pray the words that you speak  
But you won't get to this heart locked inside of me  
I don't want help, I don't want to get better  
Cause I'm in love with misery

I don't want help, I don't want to get better  
Show me the misery  
Can't stop myself, can't keep it together  
Cause I'm in love with misery  
I'll do the motions you seek  
I'll pray the words that you speak  
But you won't get to this heart locked inside of me  
I don't want help, I don't want to get better  
Cause I'm in love with misery

I don't want help, I don't want to get better  
Cause I'm in love with misery
