

## Spinning

Disciple

Another sun is born while another star goes black  
And the world keeps spinning around  
Another disease is cured while another bomb is dropped  
And the world keeps spinning around  
Somebody's tragedy is somebody's victory  
And the world keeps spinning around  
And the world keeps spinning around

My heart can't take it anymore  
I'm like a burned out cigarette  
Wish the world would just stop spinning for a minute  
No safe place in a civil war  
The meaningful and the meaningless  
Wish the world would just stop spinning for a minute

The bullet that slayed was the same bullet that saved  
And the world keeps spinning around  
The blood of thousands spilled  
The greatest nations built  
And the world keeps spinning around  
And the world keeps spinning around

My heart can't take it anymore  
I'm like a burned out cigarette  
Wish the world would just stop spinning for a minute  
No safe place in a civil war  
The meaningful and the meaningless  
Wish the world would just stop spinning for a minute  
Just stop spinning for a minute!

I don't know if I can handle your answers  
to the questions I have inside my heart  
So just hold me in the chaos  
Hold me while the world keeps spinning out of my control

My heart can't take anymore  
I'm just a used up cigarette  
Wish the world would just stop spinning for a minute  
No safe place in a civil war  
The meaningful and the meaningless  
Wish the world would just stop spinning for a minute

My heart can't take it anymore  
I'm just a brain dead silhouette  
Wish the world would just stop spinning for a minute  
Would just stop spinning for a minute  
Just stop spinning for a minute
