

# Talk On The Phone

## Disclosure

Talk on the phone with you  
On the phone with you  
We'll talk on the phone with you  
On the phone, ooh  
You know you're set  
Talk on the phone with you  
On the phone with you  
We'll talk on the phone with you  
On the phone

Roll up your sleeves, be honest with me now, baby  
Have you been let go?  
No judgement, you see, it happened to me already  
I'll tell you what I know

Yeah, the nights are when you'll find you'll fall apart  
And you might try to heal your heart by calling out

(Looking for love)  
And the teardrops in your mind become too much, yeah  
You might try and fall in love with someone else

But we'll talk on the phone, ooh-ooh  
On the phone, ooh-ooh  
We'll talk on the phone with you  
On the phone, ooh  
Talk on the phone with you  
On the phone with you  
We'll talk on the phone with you  
On the phone, ooh  
You know you're set  
Talk on the phone with you  
On the phone with you  
We'll talk on the phone with you  
On the phone, ooh
