

First Aid Kit

Disco Ensemble

Here I lay in a crashed car
No-one knows when I've left
Here I lay, staring at stars
But I know their just satellites

The first aid kit
It's useless
It's too late
It offers no help

I Heard the sound of the sirens
Long gone in the distance a sweet sonnet
And I have seen no guardian angels
Well, I have my doubts if they even care

Take me to the hospital
Drive fast 'cause I am bleeding
Take me to the hospital
Drive fast 'cause I am bleeding

Snow falls through the windshield
I guess this time my fate is sealed
Here I'll lay forever
They'll find me under the autumn leaves
