

# Tombworld

Discreation

Below the blazing sun  
We burn under blood red skies  
We are doomed, we rot  
Slowly fade away  
Lost souls, no hope  
Living in debris  
Endless chambers  
With shrines for the dead  
Vast necropolis  
Silence and bleak light  
Worship the dead

Chorus:

Welcome to the tombworld  
Where life drains  
A planet of graves  
Where necropriests preach  
The cult of the dead  
Praise the past

No future for mankind  
Galleries of coffins  
Standing side by side  
Fade away  
From the fields of despair  
Endless chambers  
With shrines for the dead  
Vast necropolis  
Silence and bleak light  
Worship the dead

Chorus

Below the blazing sun  
We burn under blood red skies  
We are doomed, we rot  
Slowly fade away  
Lost souls, no hope  
Living in debris  
Worship the dead
