

# Not Alone

## Discrepancies

I've fallen down darkness is the victor  
Demons crowd around dancing as they whisper  
Words of impending doom  
Everything is fine, yo it's all in your mind... chill  
It's in my head but I can't take this lightly  
These thoughts are mine and that makes them frightening  
I may be leaving soon

They gather around you as you drown  
Now it's time to put on your face  
Behind this cloak is just a ghost  
Jealous of every single breath you take

You're standing strong  
But it seems the ground is shaking  
You're not alone  
We're standing with you till the end  
Ohh ohh  
I know your heart is aching  
Ohh ohh  
We're standing with you till the end

How can a sound of joy be so haunting?  
They drag me down laughing as they taunt me  
With words of impending doom  
I got your back, just try to relax... chill  
The end is near a distant oasis  
No longer complacent I can escape this  
I may be leaving soon

You're standing strong  
But it seems the ground is shaking  
You're not alone  
We're standing with you till the end  
Ohh ohh  
I know your heart is aching  
Ohh ohh  
We're standing with you till the end

See it all starts with bliss as it plants a kiss right upon your temple  
Then your problems pile on top of you impossible to block these issues  
Temperatures rising off the charts, feeling like a stranger in my skin  
And I'm so sorry that I was hateful pain loses and anger wins  
I try to be thoughtless but regardless the darkness is closing in  
When I fall apart will you find it in your heart to pick me up again  
A shattered me or scattered debris of the lucid human I used to be  
But they can't know the demons I carry I'm bearing a chilled disease

I hear  
Voices emanating so familiar and happy  
The chatter of Family and friends laughing  
They gather around you as you drown  
Now it's time to put on your face  
Behind this cloak is just a ghost  
Jealous of every single breath you take

You're standing strong

But it seems the ground is shaking  
You're not alone (Just know you're not alone)  
We're standing with you till the end  
Ohh ohh  
I know your heart is aching  
Ohh ohh  
We're standing with you till the end
