## Discrepancies

I'm headed for the lights, headed for my city  
Headed for my future if you're not too busy  
Maybe you could ride with me, so pull up your todd britches  
Got that homicide sickness all I needs an eye witness  
Who can properly depict between skills and shit  
Between real and fixed between deals and tricks  
A damn shame, my niggas won't change for shit  
Still trapped behind chains and whips

Yo, these fucking cowards sit in towers building idols you can follow  
Keep it catchy, keep it empty, keep it simple, keep it hollow  
I brush it off my shoulder and straighten up my collar  
I believe there's a much higher power than that mighty dollar  
Here's a letter to my efforts and the truth is enclosed  
Our enemies will flee when their troops are exposed  
So all the money and the fame, the jewels and the clothes  
Will never be able to heal the wounds on your soul

Trust me I know at times it's tough  
See we all fall down but it's a must that we get back up  
And we will never fall, we'll rise above it all  
I'm trying to tell you homie anything is possible  
Overcome any obstacle, ain't no way they'll be stopping you  
You know we'll never fail, together we'll prevail  
And I would never want to lose these scars  
They remind me that life is hard but I'm still reaching for the stars  
And we will never fall, we'll rise above it all  
I try to tell them like blocka blocka this is Viva La Raza  
Long live the people trust me they will never stop us  
And we will never fail, together we'll prevail
