

Testify

Discrepancies

I've never bowed down like all these clowns
When around cheddar
I'd rather get off the ground and give sound effort
Your grind's clever but I rhyme better
That's why you'll never ever reproduce this sound ever
Ya better mask up cause the flow is infectious
Guys say he's the truth girls say he's the bestest
If you ain't battle tested better head for the exit
If you don't know Inspectah Deck then it's off with ya quick
I'm living wreckless I came to wreck shit
Better watch ya step and protect ya neck kid

If you want it all, put it all in
Nobody owes you nothing
Never hold back, takin' that risk
Even when you fall, it's not the end

Hands high if you next in line (extra high)
Testify if you extra fly (testify)
Not sure? You should step aside
Get a glimpse of the crowd we electrify

It's Bizzare right?
A rap God took his scars and played his cards right
Hitting hard spitting bars over these guitars right
Just know the whole squad is Mars like
We blazing riffs from the stars to ya cars like
Now tell em mask off
You still ain't matching this passion
When I was cut from this cloth
I Took a match to the fabric
You need to settle down boi ya rapping is average
You claim heavy is the crown when you actually cappin' for real

If you want it all, put it all in
Nobody owes you nothing
Never hold back, takin' that risk
Even when you fall, it's not the end

Hands high if you next in line (extra high)
Testify if you extra fly (testify)
Not sure? You should step aside
Get a glimpse of the crowd we electrify

Legends live beyond graves cuz we remember their names
When followin' fads fade we'll watch everything hollow phase out
It's okay if you got something to say
But you best open your mouth because that mumble shit is played out
Confined in a simple mind
Blinded by dollar signs
Get off your ass it's time to grind like you outta time
Livin' in the moment can be bad for you health
Think of the future don't embarrass yourself
You know these demons can't be masked by wealth
Have you asked yourself?

If you want it all, put it all in

Nobody owes you nothing
Never hold back, takin' that risk
Even when you fall, it's not the end

Hands high if you next in line (extra high)
Testify if you extra fly (testify)
Not sure? You should step aside
Get a glimpse of the crowd we electrify
