

## Limbo

Disembodied Tyrant

Maimed and to the wall of forever screaming faces  
I have been trapped here for hundreds of years  
Under the influence of an evil eclipse  
Sinful, a vile vermin

The children screaming brings ecstasy to my ears  
A beg for mercy would not satisfy our God  
We must feast to earn his presence

I am rotting  
I am dying

Somebody save me, I do not want to die here again  
God, please don't make me die here again
