

## Hand in Hand

Dishwalla

I walk alone though hand-in-hand  
You're miles away from where you stand

And honestly, I could let go of you  
And you could let go of all of me  
I will be here when you land

Hand in hand  
Standing hand in hand

When you wake up from your dream  
If you find you still believe  
I will be the one who's standing there

My hands are weak but heart is strong  
I'll carry all you're taking on  
Here and now  
Stop holding your breath  
And start singing your favorite song  
We can sing till our voices are gone

Hand in hand  
Standing hand in hand

When you wake up from your dream  
If you find you still believe  
I will be the one who's standing there

We're all searching for explanations  
But blind to the truth that we find  
I'll hold tightly, dream beside  
'Til you find your way back to the ground  
And love

When you wake up from your dream  
If you find you still believe  
I will be the one who's standing there
