

Mazelike Garden

Dishwalla

Daisies grow wild in her garden
Mazelike garden
Twining the vines around her fingers
Eating the petals one by one
In her her garden
One by one
Beautiful garden

Nothing can touch us
While we're inside of here
We will be gods
While we live in her dreams

We run for cover under Summer
Cream colored skies above
Even if all we do is lie here
Watching the clouds go by
One by one
In her garden
One by one
Mazelike garden

Nothing can touch us
While we're inside of here
We will be gods
While we live in her dream
Nothing can touch us
While we're inside of here
We will be gods

Nothing can touch us
While we're inside of here
We will be gods
While we live in her dream
Nothing stop us
While we're inside of here
We will be gods
While we live in her dream

In her mazelike garden
I am waiting out my time
In her mazelike garden
We can lie here for all time

In her maze
