Set Me Free

Dishwalla

The other night when I saw you out
Standing there by yourself

Wanted to find a way to talk to you
To be with you all alone

Infinite stars floating in the Universe
But it's you that pulls me to the center
Of your spinning orbit sweeter than honey
In the firefly light

With so little time

We still got time
To learn how to say
You open my mind
Gonna find a way
'Cause we still got time
The way you make me see
You open my mind
The way you set me free

I feel so real when you're around
Standing there next to me

Across the earth to follow you
To be with you, all alone

Infinite stars floating in the Universe
But it's you that pulls me to the center
Of your spinning orbit sweeter than honey
In the firefly light

Warm summer nights

We still got time
To learn how to say
You open my mind
We're gonna find a way

'Cause we still got time
The way you make me see
You open my mind
To all the things that are

We still got time
To learn how to say
You open my mind
We're gonna find a way

'Cause we still got time
The way you make me see
You open my mind

The way you set me free
