

Red

Disillusion

Feel me, the pain is mine
Give up, won't see no sign
God that's me on the throne
Above you on my own

I'll lead you to the place
Where you can see
My real face
The things you know regret -
Despair is strangling you
Dancing in red

See me laughing
About your care
Your pictures much too fair
Promises were raped by me
Your mind in haze -
Too dark to see

I am evil, can't you see
Your purity, your honest zeal
Your weakness and your being
Make me sick
And one day
I'll break your neck

[Chorus]
