

Midnight Lorry

Dispatch

I walk down the road looking for my tribunal
Like tom and huck stumbling down the aisle of their own funeral
Please goddess of the road, get me on my way

You see my love just left me so I'm on my own
And my heart's banged up looking for a foster home
And the highway moon is getting me dizzy

I see a mirage of medusa, a top of an Appaloosa
What I wouldn't do to be with you and your caboosa
Whispering to Mr. Beck now who's the real loser

Here come again the midnight Lorry
I think I might be moving along
There's a lot of places I got to get to
I know you're out there but I never even met you
Take me to the land of no worry
And then I'll just keep playing this song
Mr. Driver I hear the music playin' and I see the lights
Will you throw me a ride

A PYT ushers me back to the rear
I haven't been many places and I definitely haven't been here
To think I was just a lonely soul in the cold with my thumb out
And now I'm rolling a smoke and being told to stick my tongue out

We bounced and blared and so did the Lorry
She teased my hair and held me close with a story
Of rag tag visions as the moonlight poured in
Second star to the right and straight on til' morning

Here come again the midnight Lorry
I think I might be moving along
There's a lot of places I got to get to
I know you're out there but I never even met you
Take me to the land of no worry
And then I'll just keep playing this song
Mr. Driver I hear the music playin' and I see the lights
Will you throw me a ride

Looking at her face was like looking at the sun
She said you can't ask of everybody what you don't ask of one
Either way, we got today and that's all we may be allowed
I know if we hold it together, there's real love we can bring about

Here come again the midnight Lorry
I think I might be moving along
There's a lot of places I got to get to
I know you're out there but I never even met you
Take me to the land of no worry
And then I'll just keep playing this song
Mr. Driver I hear the music playin and I see the lights
Will you throw me a ride

Here come again the midnight Lorry
I think I might be moving along
There's a lot of places I got to get to

I know you're out there but I never even met you
Take me to the land of no worry
And then I'll just keep playing this song
Mr. Driver I hear the music playin' and I see the lights
Will you throw me a ride

Here come
Here come
Here come

Here come
Here come
Here come
