

Upside Down

Dispatch

Welcome to the upside down
Moving from the inside out

Welcome to the upside down
Moving from the inside out

There's a fire cat swinging in the old elm tree
He's singing if I fall, it'll be the end of me
So he reach down low and he grab some tea
To trade with cousin flow

But florence is not having any of it
She said come down now before a throw a fit
The ax will be jealous of the trees I split
On my way to cousin Kai

But malachai whoa
He know the drill now
Winds gonna blow if you cut down the low veld
I know you know that time won't allow us to trust it once again

And whether you go
And throw up your arms say
Easy now flow, it's his anniversaire
The elders they know, never to downplay
The strike of the firing pin

Welcome to the upside down
Moving from the inside out

There's a fire cat swinging in the old elm tree

But oh stay low, on the wings of the fallen
Levy's gonna blow, so we have to be all in
Big top show and the goods that you're hauling
Will come to a screeching halt

But oh stay low, on the wings of the fallen
Levy's gonna blow, so we have to be all in
Big top show and the goods that you're hauling
Will come to a screeching halt

Welcome to the upside down
Moving from the inside out

Welcome to the upside down
Moving from the inside out

And if you want to run across
If you want to stand up the boss
Better run it in 8 seconds
Bull does it in 9

Also, the mind the cannon

Mind your wild abandon
The field is full leg breakers
Full of old landmines

But oh stay low, on the wings of the fallen
Levy's gonna blow, so we have to be all in
Big top show and the goods that you're hauling
Will come to a screeching halt

But oh stay low, on the wings of the fallen
