

The Tyrant's Covenant

Distant

The horrendous fiends bow to my presence
The armies of damned wraiths forming the whips of insolence

Lost inside their hearts
Behold the Tyrant's covenant

Molded in the depths of hatred with the flesh of my children
The unholy kin

The heirs of torment marching Tyrannotopia
The 7 chosen messiahs of the end
Millions of souls bent under the commandment

Omnem Lucem Eder
Oculi Enim Ultra
Omnes Fideles Pati
Toto Ineres Incensum

Di venteris adoremus
Eat all of the light
For our eyes to see far beyond
Burn them down to cinder
Worship the old gods
Serve thy omni-creation

Eclipse the skies with blood
Extinguish the sacred flame
Eclipse the skies with their blood
