

Torturous Symphony

Distant

□□□□□□[Age teke yo.]

□□□□□□□□□□□□□□□□[Ita nori ore to omae, sai gada naida.]

In a world where darkness thrives, no room for sacred hymns of
deceit

Torturous sleep

Bow before me in this infernal dance of the torture
Savor the grotesque
Embrace the change for the unholy

Unearth the anguish
Summon malevolence
As the era unfolds, we are reborn from the blight

Harvest the torment
Swallow all the hate
Reasons for demise are etched in a gloom

Reject your preachings
Futile and weak
A devil personified in the purest form to seek

Unearth the anguish
Summon malevolence
As the era unfolds, we are reborn from the blight

Wear the brand of the forsaken breed
No time for sanctimonious verse
Reject your preachings
Unleash the horrors from the past

Death descends with a calm, cruel grace
And feasting upon the wails of the morbid embrace

Every moment you will torture me
Torturous symphony
This is the end of men

Let the darkness surpass
In this symphony of torment
Let the darkness surpass
Unleash the horrors
