

Old Scratch

The Distillers

Here's the chance to express your liberty
Noone but you can know what stepping down can mean
Despotic leader kills the bravest traitor on the street

But keep the faith they say they'll free us from our pain
They sell you a religious escapade
You join the church and they take your life away

Shameless money eat your money eat your vultures quick
But keep the faith, they say they'll free us from our pain
But your liberty is exchanged I said your liberty is exchanged
But your liberty is exchanged I said your liberty is exchanged
And then I die...
