Warrior

Disturbed

I am now an instrument of violence I am a vessel of invincibility I cannot leave this undecided Stepping down to battle another day

Remember me for all time
This determination is a vital part of me
Surrender now or be counted
With the endless masses that I will defeat

Come on bring it, don't sing it, better believe it

Broken down till your hope has died Beat down 'til victory's mine Stand up and show me some pride And now are you ready?

I'm one with the warrior inside My dominance can't be denied Your entire world will turn Into a battlefield tonight

As I look upon you Through the warrior's eyes Now I can see the fear That will ensure my victory this time

I can't be told to compromise this
They'll never doubt the body lying at my feet
A most formidable reminder
They will speak my name for eternity

I have no need of any guidance
I am a weapon, powerful beyond belief
Seen through the warrior's eyes
I never need to question how to defeat you

Come on bring it, don't sing it, better believe it

Broken down 'til your hope has died Beat down till victory's mine Stand up and show me some pride And now are you ready?

I'm one with the warrior inside My dominance can't be denied Your entire world will turn Into a battlefield tonight

As I look upon you Through the warrior's eyes Now I can see the fear That will ensure my victory this time

You can't hide now I am the warrior So decide now

How they'll remember you

Do not hide now Act like a warrior Show your pride now Solidify your place in time

I'm one with the warrior inside My dominance can't be denied Your entire world will turn Into a battlefield tonight

As I look upon you
Through the warrior's eyes now
I can see the fear
That will ensure my victory this time

I'm the one with the warrior inside
The evidence can't be denied
The entire world will stare
Into this battlefield tonight

As I stand before you With a warrior's heart Now I can feel the strength that will Ensure my victory this time
